Volume 17 Contents

January

Editorial 1
The Biochemical Basis of Sickle Cell Anemia in Saudi Arabia: A Model Case of Genetic and Molecular Disorders. A.I. Alayash and J. Bonaventura 2
Teaching Biochemistry for the 21st Century. F. Vella 6
Making Lectures More Exciting. E.J. Wood 9
The Training of Biotechnologists in Bulgaria. T.K. Nikolov 13
The Complex Approach to Teaching Chemistry and Biochemistry in Medical Faculties. J. Musil 16
IUB Fellows Course: Prague 1988 19
Biochemical Education in Yugoslavia 21
Biochemical Education in Turkey. F. Vella 23
Videotape Reviews 25
Design of a Biochemical Sciences Degree Using a Marketing Approach. K.R. Adams 26
Assault on Students' Development: The Basics of Basic Sciences in Medical Education. L.J. Van Winkle 29
Metabolism: Where to Begin? R.W. Brosemer 31
A Dynamic Version of CAI for Teaching Biochemistry. J. Carrington and M. Vlugter 34
Experimental Section
Computerized Sequence-based Predictive Methods: Their Use in the Conformation Characterization of Proteins and in the Analysis of Their Homologies. A Practical Case Employing Lysozyme and α-Lactalbumin. M. Foguet and F.X. Aviles 36
Regulation of Membrane Enzyme Activities after Incorporation of Cholesterol into Platelets. A Laboratory Experiment for Intermediate and Advanced Students. J. Sanchez-Yagüe, J.A. Cabezas and M. Llanillo 42
The Purification and Translation of Globin mRNA. E.C. Wolf 45
An Introduction to Restriction Mapping of DNA. C.E. Hepfer and S.L. Turchi 48
Microcomputer Software Reviews 50
Book Reviews 50
Turning Over an Old Leaf 54
Lexicon 55
Monitor 56

April

Editorial 57
Standards for the PhD Degree in Biochemistry and Molecular Biology. Recommendations of the Committee on Education of The International Union of Biochemistry. L. Josefsson, A. Mehler, F. Vella and E.J. Wood 58
Apolipoproteins: Biochemistry, Methods and Clinical Significance. M. Metin Donma and O. Donma 63
Biochemical Education in Greece 69
Biochemistry at Tongji Medical University, Wuhan, China. Wang Jianzhi, He Shanshu and M. Carroll 74
Education in Soil Biochemistry at Burgos University College. M. Perez-Mateos 77
IUB Fellows Course: Prague 1988 79
Networking Personal Computers. R.P. Learmonth 80
Biochemical Education in Kashmir, India. S. Tayyab 84
The Role of ATP in Metabolism. R.W. Hanson 86
Does Free-energy Change of Individual Reactions Alone Determine the Flux through a Metabolic Pathway? A.K. Abraham 92
A Laboratory Experiment to Demonstrate the Principles of Bio-ligand Affinity Chromatography: the Purification of Chicken Muscle AMP Aminohydrolase by Phosphocellulose Chromatography. M.M. Mahn and H.D. Husic 94
Radiochemical Assay of Ribulose Bisphosphate Carboxylase. C.S. Pike and J.A. Berry 96
Determination of Effective Diffusion Coefficients — an Important Parameter for the Efficiency of Immobilized Biocatalysts. P. Grunwald 99
Microcomputer Software Reviews 102

The Citric Acid Cycle — Magic Wheel. E.J. Wood 104
Book Reviews 104
Turning Over an Old Leaf 110
Lexicon 111
Monitor 112

July

Editorial 113
The Targeting of Proteins in Eukaryotic Cells. P.N. Campbell 114
Biochemical Education in Malaysia 122
The Learning Process in Science: a Study among Brazilian Biochemists. L. De Meis, P.H. Longo and E.B.M. Falcão 127
Inconsistencies in the Use of the Biochemical Squiggle. C.A. Smith 133
Computer-aided Modelling of Dynamic Systems in Biochemistry. J.B. Clarke 134
Improved Determination of K_M and V_{max} using Weighted Linear Regression and Direct Fitting to the Michaelis–Menten Curve. R. Price and P.F. Dodds 138
Seven Principles for Good Practice in Undergraduate Education. A.W. Chickering and Z.F. Gamson 140
A Model Question Paper for Biochemistry Practical Examination. A.M. Diwan 141
The Use of Enzymes in Analysis. M. Chaplin 142
Biochemistry at University Level. F. Domngang Mbiapo 145
Metabolic Pathways Chart 146
Announcement 147
Experimental Section
Application of Gel Filtration for Fractionation and Molecular Weight Determination of Proteins. O.P. Malhotra and A. Kumar 148
Agarose Gel Electrophoresis of DNA Using Aluminium Electrodes and a 12 volt Mains Adaptor as Power Supply Unit. J.H. Walker and G.E. Blair 150
Tools in Spectrophotometry and Differential Spectrophotometry. M. Prats 151
A Low-cost Insoluble Chromolytic Substrate for the Determination of Proteolytic Activity. I. Šafařik 154
Simple Experiment Showing the Use of GPC for Purification of Proteins. V. Mikeš 155
Videotape Reviews 156
Microcomputer Software Review 158
Book Reviews 158
Letter to the Editor 165
Turning Over an Old Leaf 166
Lexicon 167
Monitor 168

October

Editorial 169
Glycoproteins: An Overview. M. Shylaja and H.S. Seshadri 170
Glycoprotein Biochemistry (Structure and Function) — A Vehicle for Teaching Many Aspects of Biochemistry and Molecular Biology. C.R. Cole and C.A. Smith 179
A Partial Remedy for the Non-relationship Between Reversibility of a Reaction in the Cell and the Value of $\Delta G^{o\prime}$. G.L. Nelsestuen 190
The IUB Committee on Education 192
The Influence of Triose Phosphate Isomerase on the Reaction Catalysed by Aldolase. I.G. Darvey 193
Biochemistry Teaching in the Medical Faculty at Monash University, Australia. F.M. Ng 196
Teaching Biochemistry as Part of a Degree Programme in Biotechnology. R. O'Kennedy 199
To Land on a Dalton. S. Dewhurst 202
Biochemistry in the Dental Curriculum. K.M. Abu-Salah 203
Emphasizing Reaction Patterns in Biochemistry Courses. L. Dasso 207
Announcement 208

Experimental Section
Introducing Model Membranes and Lipoperoxidation. O. Augusto and A.M. Carmona-Ribeiro 209
Isolation and Characterization of Brain Lipids by Solid Phase Extraction and Thin Layer Chromatography. D.C. Schweisguth, F.W. Quelle, G. Wachob and R.H. Hammerstedt 211
A Simple Student Project to Isolate Subcellular Fractions and Analyse Membrane-bound and Triton X-100 Solubilized Enzyme Activity. C. Curti and S.A. Uyemura 213
Microcomputer Software Reviews 214
Book Reviews 216
Lexicon 223
Monitor 224
